Strategy: propSat
Argument over the required properties of the components and the platform
Goal:planeProp
Compositional behaviour of Adaptive MILS planes guarantee required properties
Goal:envAss
All environment assumptions are met
Context: enviroProps
assumed environmental properties: {assumed environmental properties}
Strategy: envAss
Argument over each assumed environmental property
no. of {assumed environmental properties}
Goal: sysProp
{assumed environmental property} is met
Module: propSa...
Compositional behaviour of the Adaptive MILS foundational plane guarantees the {formal property}
